

Place Planning in the Beacons

Brecon Beacons National Park Authority (BBNPA) has prepared with Design Commission for Wales and Coombs Jones Architects, Place Plan guidance. Using the Shape My Town (SMT) approach, a bespoke guidance document has been produced for Place Plan development in the National Park, which combines the place based elements of SMT with the Community Wellbeing elements, developed working with local communities. BBNPA hope the guidance document will also serve as a good example for how other local planning authorities in Wales could encourage and guide future Place Plans with their communities.
